

Guardrails of Truth

2 John 9-11

God has given us guardrails in His Word—not to limit our faith, but to keep us from drifting into danger.

1. According to the sermon, what are the three “guardrails,” and how does each protect sound doctrine?
2. What must happen to biblical terms for someone to say “the resurrection is already past,” and what does such teaching do to faith and hope? (2 Tim. 2:18)
3. Why can’t the thief on the cross be our pattern for salvation today, and how do covenant and canon guide obedience?

Reflective Question: *Have I tested my beliefs against context, covenant, and canon—or have I simply accepted conclusions?*
